

Dear Parent or Guardian,

The counseling program at June Creek is offering programs of group participation for interested students based on the identified needs of the students. All participation in these groups is completely voluntary.

These groups of 6-8 students will meet once a week for 6 weeks. The groups are designed to help students:

- feel better about themselves
- learn to express their feelings
- build self-esteem
- learn about making decisions and setting limits
- build friendships
- changing families
- anger management

I will be facilitating these groups and I am available to answer any questions or concerns that you may have.

Sincerely,

Marilyn Earle
